Introduction

As part of the country's wider Vision2040 plan, the tourism sector in Oman aims to increase its share of visitors and establish itself as a top-tier tourism destination by 2040. In line with these efforts, the Ministry of Heritage and Tourism of Oman has launched the +968-Oman Tourism directory, a guide that provides important tourism-related information for visitors to make their stay comfortable and memorable.

The guide begins with general information about Oman and then highlights various sightseeing options including nature and heritage, in addition to adventure and sports. To complement these activities, a list of tour guides has also been provided.

The main section of the guide is arranged by Governorates and includes up-to-date contact information for tourism-related services such as hotels, restaurants and tour operators.

The last section covers essential services including financial services, car rentals, pharmacies and embassies. A significant effort has gone into compiling this guide, and we hope that visitors will benefit from the information available not only during their stay in Oman but also when planning for their visit.

Welcome to Oman!

Unique EXPERIENCES

Being a country that is rich in natural diversity and graced by a terrain of mountains, gorges, deserts, and azure seas, the Sultanate is a dream come true for the outdoor enthusiast. With activities that range from diving and photography to rock climbing and camel racing, Oman offers a bit of everything for every visitor.

1. SCUBA DIVING

Oman has a coastline that extends over 1600 kilometers, providing one of the most untouched prime diving destinations in the world. With a wealth of sea flora and marine life that includes many kinds of pelagic species, there is something for divers of every experience level to discover amongst its hidden underwater treasures. Several companies specializing in diving services offer a complete range of diving courses, diving equipment and activities (night dives, wreck dives, etc).

2. ROCK CLIMBING

Having a landscape that is famed world over for its rugged mountains and jutting cliffs that plunge straight into the Arabian Sea, the Sultanate has been one of the top spots for pioneering rock climbers since the 1980s. For the rock climber, every mountain face presents an enigmatic challenge with a maze of spurs, wadis, and deep canyons. 'Rock Climbing in Oman', written by R. A. McDonald (available at most bookstores and shopping centers in Muscat) gives more specific information and insight about this activity.

4. TREKKING

Nothing could be more exciting than discovering the Sultanate's scenic mountain beauty on foot. Though the official trekking season in the country runs from September to May, it is preferable to go on a trekking expedition after October, or before April, to stay away from the harsh heat. Muscat has a tremendous amount of tour operators who specialize in trekking tours through Oman's mountainous paradise.

5. DOLPHIN WATCHING

Muscat and Musandam are renowned for their status as the dolphin watching regions of Oman, although this activity can also be enjoyed in the governorates of Al Sharqiyah, Al Wusta, and Dhofar. The best season for sighting dolphins (up to 21 species) is between October and May, during the wee hours of the morning, or late evening. Several tour agencies have attractive packages for dolphin watching tours in the capital.

7. DUNE BASHING

An adrenaline-pumping and alternate form of what is popularly known as off-roading, dune bashing is Oman's most popular adventure sport for the arduous thrill lover. Conducted on the looming Wahiba Sands of the Al Sharqiyah desert, this exhilarating sport is best experienced in the sturdy comfort of a 4x4 sports utility vehicle driven by a seasoned guide in alternating speeds of slow and fast over the shifting sands of the dunes. A must-try for all those visiting the Sultanate for the first time, dune bashing can be availed of through a number of tour operators in the country that offer exciting packages at attractive rates.

3. CAMEL RACING

Camels have been an integral part of the Omani lifestyle since the ancient times. Camel racing is an exciting sport that is very much like horse racing; camels and their owners congregate on racetracks to compete. Racing camels are bred for the track and are highly prized possessions. A good racing camel can fetch a price of RO 30,000 (US \$ 77,400). A full schedule of camel racing in Oman can be found on @ www.ocrf.gov.om @ [omancamel](https://www.instagram.com/omancamel) @ [OmanCamel_RF](https://www.facebook.com/OmanCamel_RF)

6. GAME FISHING

As the waters of Oman's coast are home to one of the most diverse aqua life forms in the world, it goes without saying that game fishing has picked up in popularity as a sport over the years. Species such as marlin and tuna are highly sought. The sport is affordable, and even novices can try their luck at bagging one.

8. DESERT CAMPING

To truly experience the nomadic heritage and lifestyle of the ancient Arabs, Oman offers tourists and vacationers alike the sheer delight of outdoor camping. Held under the glittering skies of the Al Sharqiyah desert, cultural enthusiasts can witness the traditional houses and livelihood of the local Bedouin population and discover rare species of plant and animal life, while enjoying the comfortable amenities provided by reputed, international standard desert camping and tour operators. If visiting through October to April, one can also cheer on the Bedouin camel races taking place during the season.

9. TURTLE WATCHING

Thousands of sea turtles migrate annually from the shores of the Arabian Gulf, the Red Sea and Somalia to lay their eggs on the Sultanate's shores. Oman has five of the seven species of sea turtles, and are plentiful on the beaches of Ras Al Hadd, Ras Al Jinz, the Masirah Island and the Al Daymaniyat Islands. Green turtles, loggerheads, Hawksbill and leatherbacks live for over 100 years and return every year to the same sites to lay their eggs. Many tour operators and hotels in Sur offer turtle watching packages.

10. CRUISING

Cruises in Oman are an inseparable part of its history. Oman is surrounded by the sea and Omanis are famous for their love of their azure waters. Many tour operators in Muscat and Al Sharqiyah organize cruises and related activities, whether it is watching dolphins or sailing. There is barely a beach in Oman that does not organize such trips, since many areas of the country's natural scenery can be reached only by boat.

BAHLA FORT (BAHLA, AL-DAKHILIYA GOVERNORATE)

Bahla Fort is the largest fort in the Sultanate of Oman; it was the first cultural heritage property of Oman inscribed by UNESCO on the World Heritage List in 1987. Bahla Fort was built strategically on a rocky hill overlooking the palm trees walled oasis. It has been used for around 5000 years. The Fort was rebuilt between 1624-1649 AD and enlarged in the late 18th century.

ARCHAEOLOGICAL SITES OF BAT, AL- KHUTM AND AL-AYN

The protohistoric site of Bat lies near a palm grove in the interior of the Sultanate of Oman. Together with the neighboring sites, it forms the most complete collection of settlements and necropolises from the 3rd millennium B.C. in the world.

THE LAND OF FRANKINCENSE

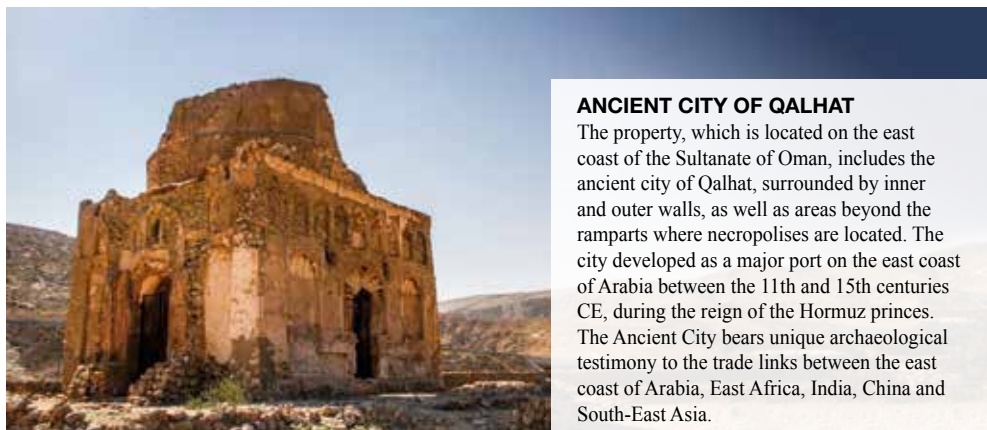

The frankincense trees of Wadi Dawkah and the remains of the caravan oasis of Shisr/Wubar and the affiliated ports of Khor Rori and Al-Baleed vividly illustrate the trade in frankincense that flourished in this region for many centuries, as one of the most important trading activities of the ancient and medieval world.

AL-AFLAJ IRRIGATION SYSTEMS

The property includes five aflaj irrigation systems and is representative of some 3,000 such systems still in use in Oman. The origins of this system of irrigation may date back to AD 500, but archaeological evidence suggests that irrigation systems existed in this extremely arid area as early as 2500 BC. Using gravity, water is channeled from underground sources or springs to support agriculture and domestic use. The five Al - Aflaj included below:

1. Falaj Daris in Nizwa.
2. Falaj Al Jeela in Sur.
3. Falaj Al Khatamain in Nizwa.
4. Falaj Al Muyassar in Rustaq.
5. Falaj Malki in Izki.

ANCIENT CITY OF QALHAT

The property, which is located on the east coast of the Sultanate of Oman, includes the ancient city of Qalhat, surrounded by inner and outer walls, as well as areas beyond the ramparts where necropolises are located. The city developed as a major port on the east coast of Arabia between the 11th and 15th centuries CE, during the reign of the Hormuz princes. The Ancient City bears unique archaeological testimony to the trade links between the east coast of Arabia, East Africa, India, China and South-East Asia.

With over twenty scenic tourist valleys, and others that have yet not been claimed, picking up a backpack and hiking over slippery marble-like boulders and fresh moss couldn't have been more charming. Make your pick from six of the most wondrous wadis flourishing and nourishing the lands of the Sultanate, and try not to use your gadgets once there. These heavenly abodes are pure and in harmony with nature, and so should you be, when you're cusped in their tranquil environment.

WADI AL ARBAYEEN

Considered to be one of the most beautiful wadis of Oman, Wadi Al Arbayeen lays just off the wilayat of Quriyat in the Al Sharqiyah region of the country. Abundant with natural pools and stunning greenery, this untouched strip of wonder is the perfect place for you if are a fan of adventure and following beaten down dirt tracks to discover Utopia. You could combine your visit with an overnight camp at the Al Sharqiyah Beach, and then hike on to the very popular Wadi Shab.

WADI SHAB

Also situated in the Al Sharqiyah region of Oman as the Wadi Al Arbayeen, Wadi Shab is a happy, lively picnic spot for locals and expatriates to gather in on the weekends and holidays and make merry. Be a part of the joy and dive in the crisp pools or indulge in sumptuous traditional barbecues with native Omanis. Do not miss out on the waterfall cave, the main attraction, which can be accessed only after swimming through three pools and trekking on foot for forty minutes. Make sure you're carrying a spare change of clothes because you might just end up getting soaked, due to sweat and also due to the waterfall!

WADI AL HOQAIN

40 kilometers away from the wilayat of Rustaq, and a 150 away from the Governorate of Muscat, Wadi Al Hoqain is a gorgeous abode of lush greenery, cool breeze, and waterfalls plunging into sparkling, silver pools that reflect the balmy Omani sunshine in ripples which are bound to mesmerize you. Famous for its year-round flowing streams and ever-flowing water springs, Hoqain features at number three on our top five Omani wadis list.

Weaving up across the Eastern Al Hajar Mountains down to the village of Bida, lies the spectacular Wadi Bani Khalid, one of the most fertile valleys in the Sultanate with lush greenery all around and gorgeous waterfalls that form natural pools. The path through the valley cuts through to the town of Muqal, which is renowned for its cave and can be explored by those having the right equipment. Here the gushing waters create a loud rushing sound and gather in pools, only to dissipate into small lakes which the villagers have used for years to fill three irrigation canals.

WADI BANI AUF

If you are the type who is into hardcore adrenaline pumping adventurism, the Wadi Bani Auf awaits you with a plethora of activities and sightseeing, all undertaken on foot. You may have to swim, jump, traverse, walk under, walk over, and cross gargantuan boulders that have remained unmoved since many millennia, but the end is definitely rewarding as your sight gets treated with glimmering lakes and peaceful foliage where you can unwind for a night of camping and gazing at the stunning wave of stars above.

WADI DARBAT

Come autumn, and the most unexpected sites of Dhofar, the Wadi Darbat, springs to life with magnificent waterfalls that thunder down to the ground from impressive heights of up to 30 meters. Carving its way through highlands and hills till it reaches Khor Rori, Wadi Darbat is just the place to visit to witness its transformation into a lush oasis in the winter months, with breathtaking views over wide areas of the coast.

A short drive beyond Wadi Darbat lies Tawi Atayr, one of the largest known sinkholes in the world measuring 150 meters in diameter, and 211 meters in depth.

THE TOP 5 MOUNTAINS IN OMAN

Famed world over for its steep ravines and golden gorges, Oman's scenic mountain range boasts of a quintet of spectacular peaks that draw in visitors from near and far, no matter the season! Running from the Musandam Peninsula in the north to the Al Sharqiyah Governorate down under are the magnificent Hajar Mountains, home to the renowned peaks of Jebel Shams and Al Jabal Al Akdhar, while the magical southern Governorate of Dhofar houses the pristine Jebel Samhan, part of a biodiverse mountain range that extends off the Al-Hallaniyah Islands.

Listed below are our pick of five such awe-inspiring peaks home to the Sultanate; indeed they make for adventurous hikes and trekking trips, and for those of you who prefer things a little more relaxed, they make for excellent camping out and sightseeing spots as well!

Tips: Drive through the Grand Canyon of Arabia through the Wadi Nakhar, Balcony walk to witness spectacular displays of soaring mountain walls and imposing, rugged cliff edges.

JEBEL SHAMS

Aptly named the 'Mountain of the Sun', Jebel Shams is Oman's highest mountain, standing erect at an altitude of 3,004 meters above sea level, and renders a breathtaking vista at all times of the day. Each versant opens up to another versant, finally ending with the peak, close to which lies the infamous Wadi Nakhar, Balcony walk, a deep ravine with chiselled formations that is best viewed from atop the rocks. Tourist guest houses have been built where tourists can spend time enjoying the serenity of this scenic mountain.

Location: Jebel Shams, Al Dakhiliyah
GPS Co-ordinates: 23.2376° N, 57.2649° E

AL JABAL AL AKDHAR

With a temperature that is up to 20 degrees cooler than at land level, Al Jabal Al Akdhar rises as a grand spectacle of rocky slopes and sandy, barren ridges, which could cause some confusion in regard to its name, which means 'Green Mountain'. Once the winding road finally stretches across the summit and the Saiq Plateau comes into view, Al Jabal Al Akdhar is a hidden paradise full of gardens, vegetation, and orchards that are secreted from view among the mazes of flowing wadis and terraces. The cool mountain air and high level of rainfall provides ideal conditions for cropping of all kinds of temperate fruit.

Location: Al Jabal Al Akdhar, Al Dakhiliyah
GPS Co-ordinates: 23.1856° N, 57.3714° E

Tips: Only four wheel drives are permitted up the steep, twisting road of Al Jabal Al Akdhar. Make sure to carry a light sweater or shawl even during summer months, as the mountain gets chilly when dusk falls.

JEBEL SAMHAN

Jebel Samhan is famed for being one of the more popular touristic destinations of the Governorate of Dhofar, especially during the Khareef (July – September), when its slopes and plains are lush with greenery, twisted frankincense trees, flowing streams and lively animal reserves. With a stunning peak standing tall at 2100 meters, Jebel Samhan makes for a rewarding day trip from neighbouring Salalah, through Tawi Attair, a deep sinkhole known as the ‘Well of Birds’. Landscapes of varying flora and rocky fields of leafless desert roses greet the eye as the road to the summit opens up to a panoramic view of the Dhofar coast.

Location: Jebel Samhan, Dhofar
GPS Co-ordinates: 17.1355° N, 54.7915° E

Tips: Follow the signs to Mirbat from Tawi Attair to pass a stunning wadi of tall, bulbous baobab trees. Legend has it that these are the only such trees in all of Arabia!

JEBEL GHAWIL

Tucked away in the north-western fringes of the village of Abud, Jebel Ghawil stands as the fondly known ‘Grey Mountain’ in the Governorate of Al Buraimi. Constituting a geological formation with Jebel Suweini, the peak is a popular destination for arduous mount climbing and trekking, as well as sightseeing of flowering Caralluma Arabica and fascinating bat species. Intruding into its basaltic lavas and tuffs are three spectacular sills that date back to the late Triassic.

Location: Jebel Ghawil, Al Buraimi
GPS Co-ordinates: 24.5811° N, 55.9966° E

Tips: While the climb up the mountain is relatively easy with plain tracks and comfortable to scale gullies, take care during your descent. Avoid all loose, steep ends and do not opt for alternative routes unless with an experienced guide.

JEBEL MISHT

Known also as the French Pillar, Jebel Misht stands at the end of the 1979 French Pillar route that follows from Ibri in the Al Dhahirah Governorate to the south-east face of the peak. While there are many other striking cliffs in the Sultanate, nothing else discovered so far dominates the landscape as does Jebel Misht with its stunning desert hybrid lines of the Walked Spur of the Grandes Jorasses and The Nose of El Capitan, both climbs of similar scale. There is also a certain historical aura to the place, evidenced by remnants of bleached fixed ropes and rusty pitons dating back to the late 1970s.

Location: Jebel Misht, Al Dhahirah
GPS Co-ordinates: 23.2564° N, 56.9979° E

Tips: Avoid crossing deep wadis while you make your descent from Jebel Misht, since the terrain is rocky and awkward. Inspect the descent from below and plan on having at least one hour of daylight remaining or a full moon before leaving.

The Governorate of Dhofar

Although Dhofar lies 1000km from the Capital city of Muscat, Planning a trip is easy with daily flights between Muscat & Salalah and direct connection between other Gulf countries. Those with some spare time may also opt to drive the coastal road to Salalah, traversing through Al Wusta and seeing some of Oman's most remote yet breath-taking beaches.

Oman's southernmost region is host to many unique attractions including Prophet Ayoub's Grave nestled deep in the mountains, the blowholes of Mughsayl and the Land of Frankincense – a UNESCO World Heritage Site. Deep sea diving and snorkeling off the coast of the Hallaniyat Islands are just some of the more adventurous activities available through local tour operators.

In the summer months, when most of the Arabian Peninsula experiences soaring temperatures, Dhofar ushers in the monsoon season, bringing with it lush greenery, cooling rains and pleasant temperatures. Locally known as Khareef, this special season starts from late June to early September and coincides with the Salalah Tourism Festival, which is held every year.

Main Cities of Dhofar Governorate:

- AL-MAZYONA • DHALKUT • MIRBAT • MUQSHIN • RAKHYUT • SADAH
- SALALAH • SHALIM • HALLANIYAT ISLANDS • TAQAH • THUMRAIT

Salalah Airport

Salalah, known to many as the 'Land of Frankincense', is a holistic cultural and tourism destination in its own right. Salalah Airport is the Sultanate of Oman's second largest airport and is located on the Salalah coastal plain in the Dhofar Governorate, 5.5 kilometres northeast of Salalah's city centre. The airport features flights to regional destinations as well as a few intercontinental charter services from Europe.

DHO FAR - SIGHTSEEING

KHAREEF

There can be no better place to escape the heat of the Arabian sands in the summer than the wilayat of Salalah. Graced by monsoonal showers over a period of four months, the Khareef Season brings to life the Sultanate's rich biodiversity, fresh water springs and waterfalls shrouded by lush greenery and white mist that rolls off gently from mountains and plains alike. Temperatures drop down to below 25°C, making Dhofar the perfect hill station stop after exploring Muscat.

Season: June – September
Location: Salalah, Dhofar

Tips: Don't miss out on the legendary Khareef Festival that takes place in Salalah annually, from mid-July to the end of August. From traditional folk music, dances, cultural events, poetry, art shows, and local Omani cuisine, the festival is truly an affair to remember.

AL MUGHSAIL BEACH

What can arguably be called the most famous attraction of the Governorate of Dhofar are the 'blow holes' that dot the entire coastline of Mughsail, lying to the west of Salalah. Accessible only by dirt tracks that lead to secluded beaches with spectacular vistas, the Al Mughsail Beach is thoroughfare that extends for

six uninterrupted kilometers. Small holes in the rocks just above the sea allow a forceful fountain of seawater to burst into the air during times when the sea is slightly turbulent.

Timings: 24/7

Location: 30km from Salalah, off the road to Ghadu

Tips: Make sure that you are travelling with an experienced off-road driver when venturing through the dirt tracks that lead onto secluded beaches. If you are unsure, you can always reward yourself with magnificent views of the waves thrashing against the shoreline during the high tides of the Khareef.

AL BALEED

Sitting right on the edge of the Arabian Sea, to the east of the Al Husn Palace, the UNESCO World Heritage Site of Al Baleed has a history that goes

back to pre-Islamic times when there were large Iron Age settlements in the same location. Now as a combination of an open air archaeological site and The Museum of the Frankincense Land, the Al Baleed Archaeological Park and Museum tells stories about the city of Baleed which was founded in the 11th century AD, and rapidly became a center of business for the trading of frankincense. Visitors can explore the remains of the city's wall and gates, a citadel, and a grand mosque.

Timings: Sunday – Thursday, 08:00AM – 02:00PM/04:00PM – 08:00PM
Friday – Saturday, 04:00PM – 08:00PM

Location: Next to the Crowne Plaza Resort, Salalah

Tips: If you aren't up for visiting the grand remains of Al Baleed's grand mosque, citadel, and the city walls and gates, you can enjoy the picturesque setting of the nature reserve by indulging in some bird watching or taking a boat trip. The best time to visit is in the late afternoon but visitors should stay until sunset to enjoy the site in natural and artificial light. Opening hours are from 8 a.m. until 1 p.m. and between 4 p.m. and 9 p.m.

KHOR RORI AND SUMHURAM

As the site of the palace of the Queen of Sheba, Khor Rori stands today in ruins, saying little of itself as one of the main export centers of the local Dhofari frankincense and Arabian horses to the principal civilizations of the world. Also being the location of the ancient city of Sumhuram, the area was abandoned when sand silted up the entrance to the port. Sumhuram is also known as Moshka Port that was prescribed in two Greek scrolls dating back to the era between the first and second centuries AD. Archeological excavations have unearthed an old temple, coins and historical artifacts.

Timings: Daily, 08:00AM – 06:00PM
Location: Past the town of Taqah, Dhofar

Tips: For the nature lover, Khor Rori is also a fantastic site that plays sanctuary to a number of migratory birds, particularly flamingos in the winter.

THE LOST CITY OF AWBAR

Mentioned in the Holy Quran, the lost city of Awbar (also known as The Atlantis of the Sands) was long thought of as a legend about a magnificent kingdom, rich beyond imagination, with streets paved of gold and treasures abound. Seemingly destined to be remain lost,

buried in the sands of the Empty Quarter of Oman, it was in the early 1990s that the NASA Space Agency used satellite imagery to uncover irrefutable evidence that the city of Awbar had indeed existed. Situated in the village of Shisr, Awbar was once the frankincense capital of the world, and is now a UNESCO World Heritage Site.

Timings: Daily, mornings only
Location: Shisr, off Thumrayt

Tips: There are no petrol stations beyond Thumrayt. Fill your tank and make sure to carry lots of water to remain hydrated before venturing off into the desert leading to Shisr. There is a small shop in Shisr for basic supplies.

AN 'NABI AYYUB

Set in a magnificent location that rises high into the mountains, overlooking the stunning seas and coastal plains of Salalah, is the tomb of Prophet Job (known as An 'Nabi Ayyub), with religious significance for Muslims and Christians alike. The drive from Salalah is full of interest as it passes by natural water springs of Ain Jarziz, and the isolated hilltop is particularly beautiful just after the Khareef mists have lifted, rendering a remarkable view of the Salalah plains.

Timings: 24/7
Location: 30km from Salalah, off the road to Ghadu

Tips: It is considered disrespectful to photograph tombs and other places of religious significance without prior permission first. Keep in mind that if you are visiting with children, they will not be allowed inside. Wear full, modest clothing. Women should cover their heads with a scarf.

MIRBAT

Located between the ridges of Jebel Samhan and the Arabian Sea, Mirbat is a charming town with a dramatic coastline that is heralded by the white domed Bin Ali Tomb, nestled in the hills of Dhofar. Running parallel to the little city, the shore ends at a picturesque fishing port, which earlier traded in frankincense and Arabian horses. Overlooking the harbour entrance is the Mirbat Fort, which is an early 19th century fortification and has considerable historic significance as the site of the fighting in the Battle of Mirbat during the 1970s. Walking through the streets of Mirbat unearths some interesting artifacts and old merchant houses.

Timings: Daily, morning to evening
Location: Mirbat, Dhofar

WADI DARBAT

Come autumn, and the most unexpected sites of Dhofar, the Wadi Darbat, springs to life with magnificent waterfalls that thunder down to the ground from impressive heights of up to 30 meters. Carving its way through highlands and hills till it reaches Khor Rori, Wadi Darbat is just the place to visit to witness

its transformation into a lush oasis in the winter months, with breathtaking views over wide areas of the coast. A short drive beyond Wadi Darbat lies Tawi Atayr, one of the largest known sinkholes in the world measuring 150 meters in diameter, and 211 meters in depth.

Timings: 24/7
Location: Off the roundabout at Taqah

AIN JARZIZ & AIN RAZAT

The southern side of the gorgeous Dhofari Mountains is blessed with many natural springs. While some are sporadic in nature, others are continuous, such as Ain Razat, which has a number of pools, lush gardens, and small caves to explore. Located at the bottom of the mountain trail that leads on to An 'Nabi Ayyub, is the Ain Jarziz. Full of natural flora and scenic photography opportunities, the spring is a great place for family picnics and outings. Both these springs are best enjoyed during the Khareef season, when the water fall is abundant.

Timings: Daily, mornings to evenings
Location: To the North and East of the Salalah City Centre

Tips: The Razat Gardens at Ain Razat open on Friday only.

The Governorate of Musandam

Covering approximately 3000 square kilometers, Musandam is the smallest and the most northern governorate of the Sultanate. It contains one of the most important waterways in the world, the Strait of Hormuz.

The city of Khasab makes a great base from which to explore the Musandam Peninsula, where you can enjoy the dramatic fjords, scenic contrasts of the sea and mountains, and picturesque rocky inlets which has made the Musandam Peninsula unique. Excursions in boats and traditional ships to spot pods of dolphin resting and feeding give the visitor unforgettable enjoyment, while divers can plunge to their hearts' content. If you're feeling extra adventurous take a trip to the surrounding mountains and fjords by 4WD vehicle or mountain bike.

The village of Kumzar is accessible only by boat and requires an invitation from a local. Alternatively, boat trips to Telegraph Island or Khawr Najd make for an unforgettable one or two-day excursion.

The Governorate of North & South Al Batinah

Facing the Sea of Oman along a coastal plain that runs from the north of Muscat to the border of the United Arab Emirates lie the governorates of the Al Batinah region of the Sultanate.

Al Batinah North Governorate is an expansive coastal area that hosts a fertile agricultural plain. The region is renowned for its fortresses and copper exports that have been in operation since early times.

Sohar, Oman's capital city in ancient times, is located in this region and rumoured to be the hometown of the legendary Sindbad the Sailor. Today, the city is one of the largest in the Sultanate, housing one of the region's largest ports and many of the country's main industries

South Al Batinah Governorate extends between sea of Oman in the east foothills of the Western Hajar Mountains in the west. Dotted with historic sights and breathtaking scenery, South Al Batinah is considered the green belt of Oman with most of the country's fresh produce harvested on plantations in the area.

South Al Batinah Governorate is a home to many beautiful wadis and villages, such as Wadi Mistal and Wakan Village, and attractions such as Nakhal Fort and the hot springs of Ain Al Thowara.

Main Cities of North Al Batinah:

SOHAR • SUWAIQ • KHABURAH • SAHAM • LIWA • SHINAS

Main Cities of South Al Batinah:

• BARKA AND AL MUSANAHAH.

Suhar Airport

The third largest hub for international airlines in Oman, Located 13km north-west of Suhar City Centre, the airport was developed strategically to support the Sultanate's ambitions in the tourism, manufacturing and logistics sectors and currently serves as a vital gateway for both domestic and international passenger and cargo traffic. The airport also serves as a gateway for domestic and emergency alternatives to Muscat International Airport.

The airport currently has four check-in counters, four immigration counters at departures, and five immigration counters at arrivals.

THE SAWADI BEACH & ISLANDS

Situated in Barka, the Sawadi Beach from afar looks as though a carpet of pink and white has been spread out on the shore, which on closer inspection turns out to be a blanket of thousands upon thousands of shells, that are home to tiny mollusks and button tops. With stunning golden sands and an uninterrupted view of the Sultanate's pristine waters, escaping to the Sawadi beach is a perfect activity to unwind and relax. A short boat ride from the coast lie the Sawadi Beach Islands, a secluded island paradise where you can camp overnight under the millions of stars.

Tips: Carry all your provisions and gear when camping out on the Sawadi Beach Islands as there are no facilities available. Once you are ready to return to the shore, call for your boat to take you back.

THE LITTLE & BIG SNAKE CANYONS

With spectacular views and taking its name from its shape, the Little Snake Canyon is the perfect place for tourists to explore in order to stretch their legs and enjoy the fresh air. Situated about 16 kilometers into Wadi Bani Auf, the Little Snake Canyon is accessible to all for the first few 100 meters. For the more adventurous and very experienced hikers, the Big Snake Canyon, close to the village of Al Zammah is a true challenge, with boulders to climb over and pools to swim through.

Timings: Daily, mornings to evenings
Location: Between Rustaq & Al Awabi

Tips: Carry a waterproof camera at all times when photographing the Snake Canyon, since there is simply no escaping the water in some parts. Do not venture if you aren't confident.

WADI BANI KHARUS

Probably one of the most well-known of all wadis in Oman, Wadi Bani Kharus lies at the town of Al Awabi, and is a journey into some 600 million yesteryears in geological time. Blessed with fascinating flora and fauna, the beautiful landscape casts a magical spell over visitors. The floor of the wadi is etched with rock art that predates the Islamic era, and further up the canyon walls are ancient fossils of snails and clams.

Timings: Daily, mornings to evenings
Location: Al Awabi

Tips: Check out the enchanting little village of Balad Sayt in Wadi Bani Auf which can be accessed through a short canyon on foot, or by a four wheel drive. While exploring the wadi, be ready to jump or swim at any given time, since some areas cannot be crossed otherwise.

Popularly known as 'The Suspended Road', lovers of adventure will find pleasure in the challenging mountain roads of Wadi Bani Auf that climb 2000 meters from the Al Batinah plain through the stunning Al Hajar Mountains to the base of Jebel Shams. The Governorate of Al Buraimi

The Governorate of Al Buraimi was created in the October of 2006. Located in the North-Western part of the Sultanate, Al Buraimi was the site where Islam first entered Oman and was known as Twam and Al Jaw back then. An oasis by nature, the region is dotted with watchtowers and forts, surrounded by beautiful plains and sharp rocks. The presence of pottery and the remains of copper and other ruins in this region, such as those found at the villages of Sham and Madhbah highlight the existence of ancient trade routes.

From the 'Fossil Valley' of Jebel Huwayah to the many castles within the interior villages and countryside and the golden sands of the Rub Al Khali (the Empty Quarter), Al Buraimi offers plenty of opportunities for those with a taste of adventure.

The town of Al Buraimi also serves as the traditional border to Al Ain (UAE), about 370km from Muscat.

WADI KHAMIS

The valley is located in Al-Rawdah and is characterized by water pools and running water with a mild weather. There is a huge turnout by tourist groups.

AS SUNAYNAH DESERT

It is located in the Wilayat of Al-Sunina on the road between the governorates of Al Buraimi and Al Dhahirah. You can cross through it to the sand dunes of the Empty Quarter through the various paths, as well as Ramlet Dheith, Abu Al-Taboul Hills, and Abu Al-Dafouf Hills.

#EXPERIENCEOMAN

The Governorate of Al Dakhiliyah

Al Dakhiliyah, meaning “The Interior”, occupying a distinctive location on the western end of the Al Hajar Mountains, and lying within the interior of Oman, the Governorate of Al Dakhiliyah has something for everyone; from extraordinarily high peaks and spectacular scenery, to some of the most ancient canals, grandiose forts and ruins of civilizations long gone. The wilayat of Nizwa in Al Dakhiliyah was famed for being the cradle of ardent intellectual activity and produced generations of Omani scientists, scholars and historians that have left behind relics of old houses and buildings that still stand today. The dramatic backdrops of the Sultanate’s highest mountain, Jebel Shams, and the famous green mountain, Al Jabal Al Akdhar, a mountainous plateau that is known for its green terrace fields brimming with roses, pomegranates and other fruits, this region offers a palette to the tourist that is endless.

The Al Hoota Caves, a recently-restored vast cave system estimated to be over two million years old and rich with stalactites and stalagmites, and many ancient castles and forts which have also been beautifully restored and are now open to the public are also of interest, especially UNESCO World Heritage Sites the Bahla Fort and the renowned Nizwa Fort and Souq.

Main Cities of Al Dakhiliyah:

ADAM • AL HAMRA • BAHLA • BIDBID • IZKI • MANAH • NIZWA • SAMAIL
AL JABAL AL AKDHAR • JEBEL SHAMS

AL DAKHILIYAH - SIGHTSEEING

AL JABAL AL AKDHAR

With a temperature that is up to 20 degrees cooler than at land level, Al Jabal Al Akdhar rises as a grand spectacle of rocky slopes and sandy, barren ridges, which could cause some confusion in regard to its name, which means ‘Green Mountain’. Once the winding road finally stretches across the summit and the Saiq Plateau comes into view, Al Jabal Al Akdhar is a hidden paradise full of gardens, vegetation, and orchards that are secreted from view among the mazes of flowing wadis and terraces. The cool mountain air and high level of rainfall provides ideal conditions for cropping of all kinds of temperate fruit.

Timings: 24/7 Location: Al Jabal Al Akdhar

Tips: Only four wheel drives are permitted up the steep, twisting road of Al Jabal Al Akdhar. Make sure to carry a light sweater or shawl even during summer months, as the mountain gets chilly when dusk falls.

JEBEL SHAMS

Aptly named the ‘Mountain of the Sun’, Jebel Shams is Oman’s highest mountain, standing erect at an altitude of 3,004 meters above sea level, and renders a breathtaking vista at all times of the day. Each versant opens up to another versant, finally ending with the peak, close to which lies the infamous An’Nakhar Balcony, a deep ravine with chiseled formations that is best viewed from atop the rocks. Tourist guest houses have been built where tourists can spend time enjoying the serenity of this scenic mountain.

Timings: 24/7 Location: Jebel Shams

Tips: Drive through the Grand Canyon of Arabia through the An’Nakhar Balcony to witness spectacular displays of soaring mountain walls and imposing, rugged cliff edges.

FALAJ DARIS

Falaj Daris is one of the largest irrigation canals in the Sultanate, and provides water for Nizwa and its surrounding areas since 500 AD. Located only a short drive away from Nizwa, this Falaj is a marvel of the ingenuity of Omani engineering. Set in a large park full of palm trees and shady spots, Falaj Daris is a great spot for a picnic and unwinding after a full day of sightseeing.

Timings: 24/7

Location: Nizwa, on the road to Bahla

AL HOOTA CAVE

Having been discovered by the locale of Al Dakhiliyah hundreds of years ago, the Al Hoota Cave is a natural marvel that runs for about 5 kilometers, but can be accessed only up to a depth of 860 meters, ending at the Cave Lake, which is home to a rare species of blind fish. The Al Hoota Cave features a subterranean cavern filled with stalactites, stalagmites and colourful solid rock columns that can be explored through a train.

Timings: Saturday – Thursday,
09:00AM – 01:00PM/02:00PM – 05:15PM
Friday, 09:00AM – 12:00PM/02:00PM – 05:15PM
Location: 30 minutes’ drive from Nizwa

Tips: The cave flooring is rugged, so wear suitable shoes and never leave your children unattended.

The Governorate of Al Dhahirah

Descending from the southern slopes of the western end of the Al Hajar Mountains lies the Governorate of Al Dhahirah, which literally translates to ‘the back’. It forms a bridge between the trade routes of Oman and its neighbouring countries, UAE and Saudi Arabia, which is why the region is called Ibri, meaning ‘crossing’. Much of the area is covered by an enormous, semi-sandy plain, and the arid desert conditions mean that Al Dhahirah is sparsely populated. However, this governorate contains relics of the Sultanate’s history that are a treasure not to be missed.

Archaeology and history play a major role in this region, which extends all the way from the Al Hajar Mountains to the Empty Quarter known as Rub Al Khali.

The city of Ibri can be reached within a few hours from Muscat, and is home to the impressive Ibri Fort, with its ancient mosque and many different gates. The small village of Bat, east of Ibri, is home to a remarkable array of beehive tombs from the Bronze Age, listed as a UNESCO World Heritage Site since 1988.

Main Cities of Al Dhahirah Governorate:

IBRI • YANQUL • DHANQ

AL DHAHIRAH - SIGHTSEEING

BAYT AL MARAH CASTLE

Beyond Ibri, to the north-west is Yanqul with the picturesque Bayt Al Marah Castle. The town is dominated by Jabal Hawra whose peak seems to change shape as you travel along the road below it. Surrounded with date Palm gardens and close to the remains of an abandoned mud village the fort will be a highlight of any visit to Al Dhahirah governorate. Dating from the 17th century AD, the walls surround an extensive range of buildings, including a traditional mosque. Inside the fort a large Tamarind Tree adds a beautiful patch of shade throughout the year.

Visiting Times:

Saturday- Thursday : 9:00 am – 3:00 pm

Friday : 8:00 am – 11:00 am .

Admission fees apply

THE BAT TOMBS

Together with the neighbouring sites of Al Khutum and Al Ayn, Bat forms the archaeological site of the world’s most complete collection of settlements and necropolises from the 3rd millennium BC. Located to the east of Ibri, the Bat site was crowned a UNESCO

World Heritage Site in 1988. Bat is a collection of graves that look very much like beehives. Consisting of 150 graves, tombs and other structures dotted across a rugged plain, the remains of the most complete tombs are from the Hafit and Umm An Nor period (3200 – 2000 BC).

Timings: 24/7

Location: Bat, ask for directions in the village

WADI DAMM

Located near the charming little village of Al Ayn, Wadi Damm is a seasonal wadi that remains dry for most part of the year, but transforms into a magical oasis during rainfall. It is remarkable for its characteristic rocky formations sculpted by erosion. The wadi is distinguished by a variety of smooth rocks, out of which nature has formed beautiful water ponds. One of the rocky formations sculpted by erosion is a small cave near the water pool, which is a fine camping site for tourists.

Timings: 24/7 Location: 45km from Ibri

Tips: Make sure to reach the wadi only by four wheel drive, as the rugged terrain will not support salon cars.

The Governorate of North & South Al Sharqiyah

The Governorates of North and South Al Sharqiyah have a bit of everything that the Sultanate has to offer to the visitor and the locale alike. From the vast, golden deserts of the Wahiba Sands to the tranquil and serene beaches of Tiwi that extend right up to Sur and the island of Masirah, the imposing cliffs and awe-inspiring gorges of Al Sharqiyah meet the fertile wadis at the eastern extremities of the Al Hajar Mountains, down to the ancient towns of Sur, Ibra, and Sinaw, rendering an experience for the traveler that is truly unforgettable.

The Al Sharqiyah Sands allows visitors to experience the desert first hand, with dunes reaching as far as the horizon and the area teeming with wildlife. Local Bedouins continue to breed livestock, including camels and Arabian horses, and visitors get the chance to see camel racing and other competitions throughout the year.

The white sand and pebble beach found between Wadi Shab and Wadi Tiwi are great for water enthusiasts. The city of Sur, famed for its ship building, makes for fantastic camping and fishing locations. This area offers an amazing range of activities for nature and sea lovers; from turtle watching at Ras Al Hadd, to kite surfing on Masirah Island or visiting the traditional Dhow yard of Sur, where Arabia's ancient style of boat continue to be crafted by hand.

Main Cities:

North Al Sharqiyah Governorate:

AL QABIL • AL MUDHAIBI • DIMMA & AT TAYYIN • IBRA • WADI BANI KHALI • BIDIYAH

South Al Sharqiyah Governorate:

RAS AL HADD BEACH

Home to human settlements and trading activities since the 3rd millennium BC, the Ras Al Hadd beach lies 60 kilometers from Sur, the capital of the Governorate of South Al Sharqiyah. Fighter planes took shelter on its coast during the Second World War and the marks of the runways exist till today. Visitors can head towards the harbour and dip their legs down the scramble of rocks into the soothing sea water. Dhows anchored on the mudflats in the harbour, coupled with the receding sunlight in the evening creates a picture perfect panorama that is worth experiencing.

Timings: 24/7
Location: 60km from Sur

Tips: Never leave your children unattended on the rocks by themselves, as the crashing waves leave behind an assortment of sea life that can be slippery. It is advisable to not visit the shore during high tide.

referred to as The Turtle Beach, located right at the headland of the Arabian Peninsula. An average of 30,000 turtles visit the beach to nest annually, making Ras Al Jinz one of the largest nesting areas for Green Turtles in the Indian Ocean. Those staying up late or rising early may be lucky enough to see these magnificent creatures building their nests and laying eggs before heading back out to the sea. The area is protected by The Turtle Reserve and visits to the beach are strictly controlled.

Timings: July – October (Peak Season)
Daily, 04:00AM – 06:00AM/09:00PM – 11:00PM
Location: Ras Al Jinz Turtle Reserve, Sur

Tips: Do not use flash photography while watching the turtles, as this inhibits them and stops them from nesting. You might want to use a faster lens or a higher ISO setting. Visiting hours are strictly limited, so book well in time to avoid disappointment.

THE WHITE BEACH

A stone's throw away from the charming little town of Fins lies one of the most popular beaches between Muscat and Sur, known as The White Beach for its exquisite whitewashed sands. The beach is a spectacular place to camp overnight; during quieter times, it's a perfect spot to stargaze and unwind to the gentle lapping of the milky waves.

BIBI MIRIAM'S TOMB

Qalhat has been recorded in time as the site of a historic Omani civilization that settled here way before the advent of Islam. Once witness to prosperous times, Qalhat is now a pile of rocks, scattered over a wasteland of ruined houses, crumbling citadels, and walls that once fortified the city. It is said that the city fell prey to an earthquake in the fourteenth century, leaving behind the only standing remains of this thriving port: Bibi Miriam's Tomb. Believed to have been built by Bahauddin Ayez, King of Hormuz, in the honour of his wife, the tomb is a crypt leading to underground corridors beneath the floor of the shrine.

Timings: Daily
Location: Qalhat, on the road to Sur

WADI SHAB

Located in Tiwi, and about a 140 kilometers away from Muscat on the Quriyat-Sur Coastal Road, Wadi Shab, meaning gorge between the cliffs, is just that. Fresh water cascading from the tops of the mountains meets the briny sea water on its banks, creating an environmental diversity unique to this wadi. Accessible only foot, the path winds its way up past caves, cliffs, and stunning pools with a change of

scene every step. After an hour of walking there's an excellent swimming spot for the diving fan.

Timings: 24/7
Location: 140 kilometers on the Quriyat-Sur Coastal Road from Muscat

Tips: For those who are brave enough to venture into the wadi's pool for swimming, there is a secret cavern you can emerge into by swimming under water for a couple of metres. Avoid visiting the wadi during the flash floods season.

WADI BANI KHALID

Weaving up across the Eastern Al Hajar Mountains down to the village of Bida, lies the spectacular Wadi Bani Khalid, one of the most fertile valleys in the Sultanate with lush greenery all around and gorgeous waterfalls that form natural pools. The path through the valley cuts through to the town of Muqal, which is renowned for its cave and can be explored by those having the right equipment.

Here the gushing waters create a loud rushing sound and gather in pools, only to dissipate into small lakes which the villagers have used for years to fill three irrigation canals.

Timings: 24/7
Location: 203 kilometers from Muscat
72 kilometers on the road from Ibra to Sur

Tips: Exercise great caution while exploring the cave as you may need to crawl and even scramble to get through certain areas. Avoid the wadi after rainfall, as it is inaccessible.

AL SHARQIYAH SANDS

The Al Sharqiyah Sands are considered to be one of the most beautiful camping sites in the Sultanate, extending over an area of about 10,000 square kilometers. The flat plain of Al Mintarib quickly changes colour and topography once entering the Al Sharqiyah Sands, with the dunes ranging from pale yellow, to rustic red, and even orange, as the day progresses. This area attracts many desert adventure fans, and is preferred by visitors owing to its ease of accessibility and availability of nearby services, which make it a first class tourist attraction. Many tourist activities take place on these sands, such as dune bashing in quads, as well as horse and camel racing.

Timings: October – April (Peak Season), 24/7
Location: Al Sharqiyah

THE ISLAND OF MASIRAH

Set like a jewel in the South-Eastern waters of Oman, the Masirah Island is a paradise that enchants the visitor with its beautiful and diverse natural environment and abundant marine life. In perfect harmony with nature, Masirah proves to be one of the Sultanate's most idyllic getaways, where travelers can experience the pervasive calmness of the sea waves and the cooling rhythm of the pure air that rejuvenates the senses.

The beaches on the Island of Masirah provide an unparalleled opportunity to see clusters of rare sea turtles (such as the Loggerhead, Green, Hawksbill and Olive Ridley) lay their eggs, and migratory birds, including pelicans and flamingos.

Timings: October – April (Peak Season), 24/7
Location: Accessible by ferry from Ras An Najdah

The Governorate of Al Wusta

Being the second largest governorate of Oman in terms of land mass, the Governorate of Al Wusta has the smallest population. Situated in the south of both the Al Dakhiliyah and Al Dhahirah governorates, Al Wusta is flanked on the east by the Arabian Sea, on the west by the Rub Al Khali - The Empty Quarter, and by the Dhofar Governorate below. Its coastline is dotted with dense mangroves and wide bays and this region is a haven for wildlife and nature lovers. Bird watching enthusiasts can spot over 130 different species, including migratory birds from as far away as Europe. The Barr Al Hikman peninsula is especially known for visiting flocks of flamingos.

On land, the moderate climate, influenced by the annual autumn season in Dhofar, helps the growth of a variety of plants and rare mammals such as the Arabian Oryx, the Nubian Ibex, Arabian wolves and Arabian gazelle.

The Rock Gardens of Duqm and the salt plains of Mahout are just some of the geological areas of interest in Al Wusta. This and a score of untouched beaches make a visit to this region a special experience.
